ABSTRACT

The major tables of this annual report on student characteristics array four major characteristics: age group; sex; level (undergraduate/graduate); and load (full-time/part-time). The main body of the report is divided into five sections: Part I contains data for the entire system as well as each institution and institutional type; Part II displays headcount and percentage arrays of students by age group for each institution and institution type; Part III summarizes historical trend data on all students from Fall 1983 through Fall 1989; Part IV displays age and sex trends by level and load indexed to Fall 1983; and Part V displays change and percent of change in the age and sex trends by student level and load from Fall 1984. A map locating the institutions of the State University, chronology of dates of establishment of institutions of the State University of New York, and a list of publications from the Office of Institutional Research are provided. INTRODUCTION

This is the sixteenth annual report on student characteristics as described by age group and sex published by the Central Staff Office of Institutional Research.

The major tables included in this report array four fundamental student characteristics:

Age Group
Sex
Level (Undergraduate/Graduate)
Load (Full-time/Part-time)

The main body of this report is divided into five sections:

Part I (Pages 1 - 170) - contains data for the entire system, as well as, each institution and institutional type. For each of the headcount tables in this section there is a corresponding table providing percent distribution arrays of the headcount data. Each institution or institution type is displayed on one page for all components.

Part II (Pages 171 - 218) - displays headcount and percentage arrays of students by age group for each institution and institution type. Tables are available for undergraduates, graduates and first-time students by load. Multiple institutions are displayed on a single page for a given component.

Part III (Pages 219 - 248) - summarized historical trend data on all students from Fall 1983 through Fall 1989. The trend reports are grouped into sections by level (undergraduate/graduate). Each level has both headcount and percentage distributions for total, full-time and part-time students. The age and sex trend tables are not available for individual institutions, but are available for all standard institutional clusters.

Part IV (Pages 249 - 281) displays age and sex trend by level and load indexed to Fall 1983. The data for this and the following section is divided into two age groups; those under 25, and 25 and over.

Part V (Pages 282 - 314) displays change and percent of change in the age and sex trends by student level and load from Fall 1984.

Part VI of the report contains a map locating the institutions of the State University, Chronology of Dates of Establishment of Institutions of the State University of New York and a list of this office's publications.

We would like to thank those individuals on the campuses who are responsible for providing this office with timely and accurate data. The collection of this data required their extensive cooperation and continued effort. Our gratitude is also extended to this office's statistical staff of Mr. Spoor and Mrs. Wendover who were responsible for editing and verifying the data; the support staff of Mrs. Fleming and Mrs. Mazzone who prepared the final typescript and were responsible for the proper distribution of the publication.
